Founder & Managing Director

ABOUT SAKOKHULE TRADING

Sakokhule Trading was founded by a young entrepreneur who refused to sit back and accept a disadvantaged situation, choosing instead to make a difference in the life of his community. The company is committed to playing its part in South Africa's development and to creating jobs within the communities it works in.

Our priority is straightforward: render a better, more sufficient service to our clients, so they get real value for their money. In an industry with so much competition, we believe the only way to keep clients is to build a healthy, long-term relationship with them — one job at a time.

The Sakokhule Trading team is led by **Mr Lindokuhle Teddy Mhlongo**, supported by administrative, maintenance, projects and sales teams.

Vision & Mission

VISION

Our vision is for Sakokhule Trading to attain recognition as a world-class provider of innovative, reliable civil engineering solutions — delivering excellent service to our clients, our business, and our staff.

MISSION STATEMENT

We will continuously strive to provide innovative, cost-effective solutions in every area of our business, ensuring lasting financial stability, steady growth, and a challenging work environment. A proactive, responsible approach to safety and environmental protection is a pre-requisite. Simply stated: Sakokhule Trading will consistently deliver outstanding value to its clients.

OBJECTIVES

- Contribute to improving living standards and promoting the spirit of Batho Pele — putting people first.
- Render an effective, highly professional service in an organised manner.

HOW WE WORK

- Lead in our field of expertise.
- Approach every job with professionalism.
- Be reliable — sustain growth without compromising environmental responsibility.
